Part of the reason it was delayed was we were trying to get out the Hudson River Bill for \$20+million. The field office sent us the final information needed for that bill in December and it trumped the other projects John was working on including Rolling Knolls.

John dropped the bill off for me sign, which I did. I forgot to ask him why it sat with him for about a month, but I will when he brings it back for me to sign for Angela.

Thanks!

There are two bills that John should have ready for concurrence by tomorrow and Rolling Knolls is one of them. This bill should be ready for concurrence tomorrow (if not today). Tanya, if you do not see something by 2pm tomorrow let me know.

Thanks.

Rob

Thank you! I believe Tanya sent it to him in early December.

Robert,

There is an oversight bill for Rolling Knolls that has been with Koechley since early December. Can you please follow up with him and shake it loose? Thank you!
